TODAY is a red-letter day in the history of the Halifax Town A.F. Club. Never previously have we progressed so far in the world-famed cup tournament, and we are naturally proud of our great achievement in reaching the fifth round. It has been a hard task and our boys are to be congratulated on being the only representatives of the Northern Section. It is very fitting for the occasion we should have the pleasure of a home tie for this round, and that such attractive rivals as Luton are in opposition.

Manager.

The pairing of the clubs has given us the chance of a lifetime to figure in the last eight of the competition. It is almost unbelievable, especially when one thinks of the great clubs which have fallen by the way side. But we intend to stick it with real Yorkshire grit and determination.

We extend a very hearty welcome to our Southern visitors to-day, and congratulate them on their successful cup run to-date, and hope that Luton players and supporters will enjoy their trip to Halifax, even if we do "bash in" their straw hat this afternoon.

Operating in the Southern Section our opponents are practically an unknown side to us in the North, but Kean, the famous Bolton and Sheffield Wednesday International half-back and captain, is known by repute, and Roberts, left-wing, was at one time on the Shay register. Luton occupy a similar position to ourselves in the league, but have only one away win in 13 league games. Their cup record is more impressive, but we refuse to be in any way downhearted or depressed to-day and contemplate another cup success for the Blue and Whites.

Since the last round against Chester we have added to our playing strength, Fred Tunstall, the former Sheffield United and England left wing. It was quite obvious during the last cup game that Betteridge is as yet unfit for strenuous football, and it was a wise move to engage Tunstall, as he is eligible for to-day's cup-tie. His play should greatly improve our front line, and when he settles down will undoubtedly give Town supporters something to rave about. "Tunny" is already the proud possessor of an English Cup medal, won in 1925 with Sheffield United. He had the honour of scoring the winning goal on that great occasion.

The players will already have received instructions, so sit back and listen while you receive yours. Don't think because you have paid your "bob," nothing else is required. You are expected and requested to use your vocal powers. You benedicts who have not the opportunity to shout at home, here is a glorious opening. Don't be afraid, you will have lots of time to recuperate before the next round.

After giving Luton a welcome cheer to get your voices to concert pitch, remember Chester, and don't get disheartened, but give the Shay boys the encouragement they need and deserve.
